Minnesota Department of Human Services (DHS)

You have the right to file a complaint with DHS if you believe you have been discriminated against in our health care programs because of any of the following:

- race
- color
- national origin
- religion (in some cases)
- age
- disability (including physical or mental impairment)
- sex (including sex stereotypes and gender identity)

Complaints must be in writing and filed within 180 days of the date you discovered the alleged discrimination. The complaint must contain your name and address and describe the discrimination you are complaining about. We will review it and notify you in writing about whether we have authority to investigate. If we do, we will investigate the complaint.

DHS will notify you in writing of the investigation's outcome. You have a right to appeal if you disagree with the decision. To appeal, you must send a written request to have DHS review the investigation outcome. Be brief and state why you disagree with the decision. Include additional information you think is important.

If you file a complaint in this way, the people who work for the agency named in the complaint cannot retaliate against you. This means they cannot punish you in any way for filing a complaint. Filing a complaint in this way does not stop you from seeking out other legal or administration actions.

American Indians can continue or begin to use tribal and Indian Health Services (IHS) clinics. We will not require prior approval or impose any conditions for you to get services at these clinics. For elders age 65 years and older this includes Elderly Waiver (EW) services accessed through the tribe. If a doctor or other provider in a tribal or IHS clinic refers you to a provider in our network, we will not require you to go to your primary care provider prior to the referral.

Important information

What is a list of covered drugs?

A list of covered drugs includes the prescription drugs covered by Hennepin Health. The drugs on the list are selected by Hennepin Health with the help of a team of doctors and pharmacists. Hennepin Health will generally cover the drugs listed in the list of covered drugs as long as the drug is medically necessary, the prescription is filled at a Hennepin Health network pharmacy, and other requirements related to the drug are followed.

Most drugs and certain supplies are available up to a 30-day supply. Certain drugs you take on a regular basis for a chronic or long-term condition are available up to a 90-day supply and are identified on this List of Covered Drugs as 90DS under the Special Code column.

Does the list of covered drugs ever change?

The Hennepin Health list of covered drugs can change during the course of a calendar year. If changes affect the coverage of a drug you are taking, Hennepin Health will make reasonable efforts to contact you and your prescriber to tell you about the change. Hennepin Health will also tell you about alternative drugs that are covered.

Examples of some changes that may occur are:

- A drug you are taking is no longer preferred. (Refer to “What is a Preferred Drug List?” in the section following).
- A drug is removed from the list of covered drugs for safety reasons.
- Prior authorization requirements have changed. (Refer to “Are there any restrictions on my coverage?”)

How are drugs listed in the list of covered drugs?

There are two ways to search for a drug within the formulary:

Alphabetical

The drugs on this list begin on page 5 and are grouped alphabetically.

By therapeutic class

The drugs on this list begin on page 47 and are grouped by therapeutic classification.

Generally, all applicable dosage forms and strengths of the drug cited are included for coverage unless specific forms and strengths are noted.

What is a Preferred Drug List?

In Minnesota, all health plans are required to use the Minnesota Department of Human Services’ (DHS) Preferred Drug List (PDL). The PDL is created by DHS, in consultation with the Drug Formulary Committee, to let prescribers and members know about drugs or drug classes that are cost effective. Generally, drugs that are “preferred” are more cost effective and drugs that are “non-preferred” are less cost effective. Preferred drugs are available to members with fewer restrictions. Non-preferred drugs require a prior authorization. To get a nonpreferred drug, your doctor or health care provider must get prior authorization. The PDL is included as part of Hennepin Health’s list of covered drugs. Hennepin Health’s complete list of covered drugs includes other drugs in addition to those on the PDL. The PDL is available on DHS’s website at: <https://minnesota.primetherapeutics.com/links>.

What are generic or biosimilar drugs?

A generic drug is approved by the Food and Drug Administration (FDA) and has the same active ingredients as the brand name drug. It produces the same clinical effect as the brand name drug.

A biosimilar drug is an FDA-approved biologic drug (most often an injectable prescription drug) that is highly similar to an already approved biological product. It has no clinically meaningful differences in terms of safety and effectiveness.

Generic or biosimilar substitution means a generic version or biosimilar version of a drug is given instead of the brand name or non-biosimilar version of the drug.

Hennepin Health will cover the brand name or non-biosimilar version of the drug only when:

1. Your prescriber informs Hennepin Health in writing that the brand name or nonbiosimilar version of the drug is medically necessary; OR
2. Hennepin Health may prefer the dispensing of certain brand name versions over the generic or non-biosimilar version over the biosimilar version of the drug; OR
3. Minnesota law requires the dispensing of the brand name or non-biosimilar version of the drug.

Within the list of covered drugs, brand name drugs are listed in all capital letters and generic drugs in all lower case letters.

What are over-the-counter drugs?

Drugs and products that are available for purchase without a prescription are referred to as over-the-counter (OTC). Although an OTC product is available without a prescription, if a doctor writes a prescription for an OTC product, Hennepin Health may cover it. Within the list of covered drugs, OTC drugs and products are listed with a special code of OTC and are also grouped by the therapeutic classification “Over-the-Counter”.

What are specialty drugs?

Specialty drugs are used by people with complex or chronic diseases. These drugs often require special handling, dispensing, or monitoring by a specially trained pharmacist.

If you are prescribed a drug that is on the Hennepin Health Specialty Drug List, your prescriber will need to send the prescription to one of Hennepin Health’s specialty pharmacies listed here.

The most current list of specialty pharmacies, including contact information and hours of operation, is available in the **Specialty Pharmacies section of the Provider & Pharmacy Directory** hennepinhealth.org, which is updated monthly. If you need help finding this section of the directory, or if you would like a paper copy mailed to you, please call Member Services at 612-596-1036 (800-647-0550).

You will also need to call the specialty pharmacy where your prescription is sent to set up an account. You will need to have your Hennepin Health member identification card when you call the specialty pharmacy.

What if a drug is not on the list of covered drugs?

Not all drugs are covered. If a drug you want to take is not listed in the list of covered drugs, you can call Member Services at 612-596-1036 (800-647-0550, This call is free), TTY 711 and ask if the drug is covered. If not, it is considered a “non-formulary” drug. If you need a drug that is not included in the list of covered drugs, your doctor may request an exception. To file a request, your doctor can fax us at 612-321-3712 or mail a written request to:

Hennepin Health
300 South Sixth Street, MC 604
Minneapolis, MN 55487-0604

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior authorization:** Hennepin Health requires you or your health care provider to get prior authorization for certain drugs. This means that you will need to get approval from Hennepin Health before you fill your prescription. If you don't get approval, Hennepin Health may not cover the drug.
- **Quantity limits:** For certain drugs, Hennepin Health limits the amount of the drug that Hennepin Health will cover.
- **Age requirements:** Some drugs have age requirements. A prior authorization may be needed depending on your age and the specific drug prescribed.

You can find out if your drug requires prior authorization, has quantity limits, or has an age requirement by looking in this list of covered drugs. An exception to a drug restriction or limit can be made if your doctor submits a statement or documentation supporting the request. Refer to Prescription Drugs in Section 7: Covered Services of your Member Handbook for more information. You can also get more information about the restrictions applied to specific covered drugs by contacting Member Services at 612-596-1036 (800-647-0550, This call is free), TTY 711 or by visiting our website at hennepinhealth.org. Also refer to “Can I ask for an exception to the coverage restrictions?”

- **Excluded drugs:** Some drugs are not on the list of covered drugs. This means they are not covered. Excluded drugs include the following:
 - o Drugs used to treat sexual or erectile dysfunction
 - o Drugs used to enhance fertility
 - o Drugs used for cosmetic purposes, including drugs to treat hair loss
 - o Drugs excluded from coverage by federal or state law
 - o Experimental drugs, investigational drugs, or drugs not approved or authorized by the Food and Drug Administration (FDA)
 - o Medical cannabis

Can I request an exception to the coverage restrictions?

Yes. You or your healthcare provider can get the drug reconsideration request from hennepinhealth.org or by contacting Member Services at 612-596-1036 (800-647-0550, This call is free). TTY: 711. Your provider must return this form to the fax number or address listed on the document. To allow for a thorough review and to ensure that you or your healthcare provider receives a response within 24 hours, all information requested in the form should be provided, including documentation of which medications have been tried and failed, including the dosages used, and the identified reason for failure (e.g. side effects).

What will a prescription cost?

Medical Assistance-covered drugs no longer have copays. You do not have cost sharing for drugs covered by Medical Assistance. MinnesotaCare members may have copays. All copay information for prescriptions is listed in the Member Handbook in Section 6: Cost- Sharing. If you have additional questions, call Member Services at 612-596-1036 (800-647-0550, This call is free), TTY: 711 or visit our website at hennepinhealth.org.
