Acknowledgments

St. Stephen's Human Services extends its thanks to the many people who have contributed to the 16th edition of the *Minneapolis Handbook of the Streets*.

Terry Hildebrandt at the Salvation Army district headquarters again helped keep the book up-to-date with information about their many locations and services. Likewise, Anne Semenak and Ann Noeker of Hennepin County Human Services & Public Health Dept. helped coordinate the review of information in the public assistance section.

We also offer thanks to the following volunteers who made many phone calls updating agency information: Pat Helin, Ruth Meitz, Richelle Pearl-Koller, and Tommi Stevens.

If you find errors or omissions in this book, or have any suggestions, please call 612-870-2283 or e-mail me at mmenner@ststephensmpls.org so that we may continue to improve the handbooks.

A state—sponsored program that provides additional monthly funding to those persons who are receiving SSI or Social Security. The amount of an MSA grant depends on several different factors, such as how much you pay in rent, if you live alone or with other people, and what your total income is. (Income includes Social Security and SSI.) Because it is a state program, the county—not the Social Security office—manages it.

I. Social Security

Social Security Administration

Hours: Monday through Friday from 9 am–4:30 pm.

Supplemental Security Income (SSI)

SSI is a federal needs based program providing benefits to anyone who is aged (age 65 or older), blind, or disabled. Disabled under SSI rules means a person has a medically determinable physical or mental impairment, which: results in the inability to do any substantial gainful activity, and has lasted or can be expected to last for a continuous period of not less than 12 months. Substantial gainful activity is defined as the ability to work and earn \$980.00 per month. If someone is working, there are ways that could lower the monthly gross wages below \$980.00. The Social Security Administration no longer recognizes drug addiction and alcoholism (DA & A) as disabling conditions. Someone with another impairment should still file. If the DA & A does not contribute to the impairment, they could be found to be disabled. Anyone who is disabled, should be encouraged to file for benefits.

To determine SSI eligibility and payment amounts, SSA considers the applicant's income and resources. Income could include money earned from work, benefits from other sources, such as; Social Security, workers compensation, Veterans Affairs, friends or relatives, free food or shelter. Resources are things which a person owns such as; cash, bank accounts, land, vehicles, personal property, life insurance, anything that can be converted to cash and used for food and shelter. A single person is limited to \$2,000.00 and a married couple has a \$3,000.00 resource limit. There are many exceptions/exclusions regarding income and resources. Anyone that is disabled should be encouraged to file for SSI.

To be eligible for SSI, an applicant must be a citizenship or one of certain alien categories. There are many categories of lawful aliens that would be eligible for SSI, contact a Social Security Office or the National 800 number 1-800-772-1213 to inquire.

Anyone applying for SSI will be asked about their medical history; doctors, tests, and medications. The claim representative (CR) will ask questions about the person's income, resources, and living arrangements. The CR will ask the applicant to attest to the truthfulness of their answers.

Appeals:

If an application is denied, there is a 65 day appeals period (60 days plus 5 days mailing). If an appeal is requested after 65 days, the applicant must show good cause for late filing of the appeal. If the late appeal is not accepted, a new application can be filed, but there is a potential loss of benefits. The Social Security Office can provide a referral list for free legal services.
